## Sewer user fees and surcharge rates

All sanitary sewer user fees are based on water consumption as an approximation of sewer use into the facility. The consumption amount is provided by the water service supplier (Kentucky American Water Co.) and is based on water meter readings. Provision is made in each sewer user schedule for water not discharged to the sewer system (e.g., irrigation, pool filling). Additionally, all sanitary sewer users are permitted to contract with Kentucky American Water Co. for a separate irrigation meter to supply water used in irrigation or other uses not discharged to the sanitary sewer system. This meter will not be subject to sewer user fees

The Lexington-Fayette Urban County Government's rate schedule is broken into two tiers. Schedule A (residential) and Schedule B (non-residential).
